CONTENTS.

FARMERS' BULLETIN NO. 401.—THE PROTECTION OF ORCHARDS IN THE PACIFIC NORTHWEST FROM SPRING FROSTS BY MEANS OF FIRES AND SMUDGES.

Page.

Introduction 5
Preparation necessary for frost prevention 6
Materials to be used for fuel 7
Materials for starting fires 9
Manner of distributing the materials in the orchard 10
Quantity of material to be used for each fire 11
Cost of materials for firing an acre 12
Necessity of understanding weather conditions 13
Meteorological data obtained in the Rogue River Valley 17
Weather conditions producing spring frosts in the Rogue River Valley 19
Injurious temperatures 20
Results of the work 20
Value of firing the orchards when the cost is compared with the value of the crops 21
Practical suggestions on the use of the psychrometer and other meteorological instruments 22
Conclusions 24

FARMERS' BULLETIN NO. 402.—CANADA BLUEGRASS: ITS CULTURE AND USES.

Introduction 5
Description of Canada bluegrass 5
Uses and value of Canada bluegrass 8
Commercial seed of Canada bluegrass 12
Hay of Canada bluegrass from which seed has been thrashed 16
Management of Canada bluegrass in the cropping system 17
Summary 19

FARMERS' BULLETIN NO. 403.—THE CONSTRUCTION OF CONCRETE FENCE POSTS.

Comparative advantages of concrete and wooden fence posts 5
Materials for making concrete 6
Molds for line posts 8
Reenforcement 17
The concrete 21
Concrete posts 25
Building the fence 26
Cost of concrete posts 28
Miscellaneous posts which may be made of concrete 29
Warning 31

FARMERS' BULLETIN NO. 404.—IRRIGATION OF ORCHARDS.

Selection of land for orchards 5
Typical water supplies for orchards 6
Clearing and grading land for fruit 9
Locating the tree rows 10
Methods of irrigating orchards 12
Time to irrigate orchards 24
Number of irrigations per season 25
Duty of water in orchard irrigation 25
Evaporation losses from orchard soils 27
Loss of water due to percolation 29
Removal of waste water 30
Growing crops between tree rows 33
Winter irrigation of orchards 36

FARMERS' BULLETIN NO. 405.—EXPERIMENT STATION WORK, LVII. Page.
A perfect stand of corn 5
Protection of seed corn from burrowing animals 8
Clover-seed production in the Northwest 9
Supplementary home-grown feeds for hogs in the South 14
Fleshing horses for market 16
Fertility and hatching of eggs 18
The marketing of eggs 19
Cement silos 21

FARMERS' BULLETIN NO. 406.—SOIL CONSERVATION.
Introduction 5
Disposal of land by the Government 5
Importance of cheap and abundant food 6
Steps in agricultural development 6
Difficulties in changing types of farming 7
Exploitive farming too long continued 7
Decrease in population and abandonment of land in the older States 8
The present situation 8
Conditions in older countries 9
The solution of the problem 11
Effect of live stock on soil fertility 11
Effect of legumes 12
Dependence on our own resources 13
Examples of successful farming 13
Conclusion 15

FARMERS' BULLETIN NO. 407.—THE POTATO AS A TRUCK CROP.
Introduction 5
The potato as a truck crop 6
Soil 8
Seed 9
Planting 14
Fertilizers 15
Cultivation 16
Spraying 17
Harvesting 20
Digging 21
Packages 22
Grading 23
Marketing 23

FARMERS' BULLETIN NO. 408.—SCHOOL EXERCISES IN PLANT PRODUCTION.
Purpose of the bulletin 7
Scope of the bulletin 8
Materials for laboratory exercises 8
General plan of laboratory exercises 10
Exercises in plant production 12
Helps for teachers 47

FARMERS' BULLETIN NO. 409.—SCHOOL LESSONS ON CORN.
Class studies 5
Class exercises 12
Publications useful in corn study 27

FARMERS' BULLETIN NO. 410.—POTATO CULLS AS A SOURCE OF INDUSTRIAL ALCOHOL.
Introduction 5
Fundamental considerations in establishing a potato distillery 7
Estimated costs of a potato distillery 9
Government regulations 10
Details of operating a potato distillery 11
Malt 19
Yeast 24
Analytical data 32
Slop feeding 34

FARMERS' BULLETIN NO. 411.—FEEDING HOGS IN THE SOUTH.
Introduction 5
Too much corn feeding not profitable 6
The sow and the sucking pigs 8
Concentrates to supplement corn 13

FARMERS' BULLETIN NO. 411.—FEEDING HOGS IN THE SOUTH—Continued. Page.
Pasture crops to supplement corn ... 21
Amount of grain to feed when hogs are on pasture ... 34
Root and tuber crops ... 36
Crop succession for hog feeding ... 38
Finishing hogs after pasture crops are exhausted ... 38
Increase in soil fertility due to grazing hogs ... 39
Breeds of swine ... 40
Conclusions ... 47

FARMERS' BULLETIN NO. 412.—EXPERIMENT STATION WORK, LVIII.
Fertilizers for pineapples ... 5
Wart disease of the potato ... 7
The typhoid or house fly ... 11
Rice and its by-products as feeding stuffs ... 16
The forced molting of fowls ... 20
A portable panel fence ... 26
Pasteurization in butter making ... 28
Milling and baking tests with durum wheat ... 29

FARMERS' BULLETIN NO. 413.—THE CARE OF MILK AND ITS USE IN THE HOME.
The care of milk in the home ... 5
The home pasteurization of milk ... 9
Food value of milk ... 11

FARMERS' BULLETIN NO. 414.—CORN CULTIVATION.
Possibility of doubling present yield ... 3
Improvement in quality of seed planted ... 4
Improvement in condition of soil ... 6
Improvement in methods of cultivation ... 15

FARMERS' BULLETIN NO. 415.—SEED CORN.
Small yields due to poor seed corn can be prevented ... 5
The very best seed is available at ripening time ... 5
Where to obtain the best possible seed corn ... 6
Corn breeding is a special line of work ... 6
What constitutes good seed corn ... 6
How to gather seed corn ... 7
Treatment of seed immediately after gathering ... 8
Destroying weevils or grain moths ... 10
Winter storage of seed corn ... 10
Testing the germination of seed corn ... 11
Grading seed corn ... 11
Method of shelling ... 12
Summary ... 12

FARMERS' BULLETIN NO. 416.—THE PRODUCTION OF CIGAR-LEAF TOBACCO IN PENNSYLVANIA.
Introduction ... 5
Character of the cigar-leaf tobacco produced in Pennsylvania ... 5
Localized concentration of tobacco culture ... 7
Soils devoted to tobacco culture ... 7
Cultural methods ... 9
Harvesting ... 15
Curing and handling ... 17
Cost of production ... 21
Tobacco diseases and enemies ... 22
Cultural methods deserving special consideration by the tobacco growers of Pennsylvania ... 23

FARMERS' BULLETIN NO. 417.—RICE CULTURE.
Introduction ... 5
Varieties of rice ... 5
Production and importation of rice ... 6
Rice-growing sections ... 7
Soils adapted to rice ... 8
Rice lands ... 9
Irrigation ... 10
Preparation of the ground ... 11
Drainage ... 12
Sowing ... 12

FARMERS' BULLETIN No. 417.—RICE CULTURE—Continued. Page.
Flooding 14
Uniform ripening 15
Fertilizing 15
Weedy grasses 16
Red rice 18
Harvesting 19
Thrashing 20
The question of labor 20
Yield of rice 20
Rice milling 21
Effects of fashion in rice 23
Rice as a food 25
By-products of rice culture 26
Rice cultivation in southwestern Louisiana and southeastern Texas 27
Prospects for the extension of the rice industry 30
FARMERS' BULLETIN No. 418.—GAME LAWS FOR 1910.
Introduction 3
Legislation of 1910 4
Open seasons 11
Shipment of game 25
Sale 31
Limits 35
Licenses for hunting and shipping game 37
FARMERS' BULLETIN No. 419.—EXPERIMENT STATION WORK, LIX.
Tillage *v.* sod mulch in apple orchards 5
Ear characters of seed corn in relation to yield 10
Seed disinfection and crop production 15
Blackleg of the Irish potato 18
Progress in horse breeding 19
Sweet potatoes and their preparation for the table 22
FARMERS' BULLETIN No. 420.—OATS: DISTRIBUTION AND USES.
Introduction 5
Production and distribution of the oat crop 5
Marketing oats 11
Composition of oats 14
Utilization of the grain 18
Utilization of the straw 21
Use as hay and pasture and for soiling 21
Use as a nurse crop and a cover crop 23
Summary 23
FARMERS' BULLETIN No. 421.—THE CONTROL OF BLOWING SOILS.
Introduction 3
Normal movements of the soil 3
Causes of excessive blowing of soil 5
Control of soil blowing 7
Blowing of sandy soils 12
Blowing of newly cleared lands 15
Blowing of other soils 17
Miscellaneous problems 18
Control of drifting sand and sand dunes 21
Summary 23
FARMERS' BULLETIN No. 422.—DEMONSTRATION WORK ON SOUTHERN FARMS.
Introduction 5
The two branches of the demonstration work 6
Plan of organization 6
Scope of the demonstration 7
The instructions 8
How farmers are influenced to adopt better methods 9
The cultural system of producing cotton under boll-weevil conditions 10
Demonstration work on various farm crops 15
Boys' corn clubs 18
Practical results accomplished 20
Conclusions 21

FARMERS' BULLETIN No. 423.—FOREST NURSERIES FOR SCHOOLS. Page.
Introduction 5
General suggestions for the school nursery 7
Collecting tree seeds 9
Storing the seeds 10
Testing the seeds 12
Preparing the seed bed 13
Treatment of seeds preparatory to planting 14
Planting the seeds 14
Care of the seed bed and seedlings 15
Transplanting the seedlings to the nursery bed 16
Final disposal of young trees 20
Field sowing 23
Growing trees from cuttings 23
FARMERS' BULLETIN No. 424.—OATS: GROWING THE CROP.
Introduction 5
Origin and history of oats 5
Description of the oat plant 6
Soils adapted to the production of oats 6
Oats in the rotation 10
Preparation of the seed bed 13
Preparation of the seed 16
Sowing the seed 18
Treatment after seeding 22
Harvesting the crop 25
Yields 29
Cost of production 30
Varieties adapted to different sections of the United States 31
Improvement of the crop 38
Diseases affecting oats 40
Insects injurious to oats 42
Summary 43
FARMERS' BULLETIN No. 425.—EXPERIMENT STATION WORK, LX.
Commercial bean growing 5
Digestion experiments with range forage crops 9
Stallion legislation in the United States 12
Substitutes for oats in rations for horses 18
Simple quantitative tests for casein 20
